

CV - NICO KARS - 2019

My life is about maximizing the potential and creativity of talent. After 10 years of being creative director of the advertising agency KRACHT12 at Maastricht it was time for a new adventure. I have been teaching Creativity at Sint Lucas Eindhoven and got my licence to teach at MBO creative colleges. People describe me as positive, passionate and full of energy. Now I am focussed on producing video and sharing my gift to this world as a freelancer.
